New Year's Resolution

This year when you contemplate your New Year's Resolution, aside from losing weight, or any of the other common things that we never really accomplish, think about your commitment to the club. I want 2005 to be a year of new membership, more modeling, more excursions, more seminars, maybe an alumni picnic, having Railfair twice a year! (Is this giving any of you out there any ideas) Be a part of your organization and be involved, we get more done together with a desire to succeed, than to watch a few others struggle alone. Go out and find a possible new member, or better yet, get an old one involved again. Build that model you've been thinking you can't build, and be more involved, because we're glad to have you aboard.
